

CONTENTS

SECTION 1 Purpose and Scope	4
Purpose of a Six-Year Plan	5
Relationship to Other Plans	5
1996 To 2001 Six-Year Transit Development Plan – Carrying Out the LRPF Objectives	5
Scope of this Update	6
Purpose of this Discussion Document	6
SECTION 2 Plan Development Process	8
Six-Year Plan Update Process	9
Six-Year Plan Work Products	9
Public and Stakeholder Involvement	9
Six-Year Plan Update Schedule	10
SECTION 3 The 2007 System - Building on the Success Of the Current Plan	12
<i>The 2007 System</i>	13
Resource Allocation	13
System Development and Integration	13
Service	14
Capital	15
<i>Resources Available to Make it Happen</i>	15
Service	15
Capital	16
Capital Program Highlights	16
<i>Key Questions for the Six-Year Plan Update</i>	17
SECTION 4 Primary Issue Areas For Policy Development and Direction	18
Service and Capital Issue Overview	19
Primary Issue Areas	19
<i>Primary Issue Area 1: Emphasis of New Service and Capital Program Investment</i>	20
Future System Growth – Alternative Network Emphases	21
Alternative Network Analysis	21
Comparison of the Three Six-Year Plan Alternative Networks	21
Alternative #1 – Growth Management network growth emphasis	22
Alternative #2 – Coverage network growth emphasis	23
Alternative #3 – Ridership and Demand network growth emphasis	23
Service Hours Comparison	24
Ridership Comparison	27
Coach Requirement Comparison	28
Specific Examples from Each Scenario	29
Assessment of Network Alternatives Applicability to Motion 10986 Objectives	32
Assessment of Current Six-Year Plan Service and Capital Strategy Applicability in Each Alternative Scenario	34
<i>Issues Common to All Growth Scenarios</i>	38
Complementary Paratransit Services	38
ACCESS Transportation and Integration with General Public Transportation Services	39
Additional Metro Products and Services	39
Potential New Products and Strategies	40
Bus Rapid Transit	40
New Ride Free Areas	41

Six-Year Transit Development Plan for 2002 to 2007
Discussion of Issues and Areas for Policy Development and Direction

Integration and Partnerships	42
King County Metro Issues Related to Sound Transit	42
Capital Program	43
Passenger Facilities	43
Operating Facilities	44
Bus, VanPool and Paratransit Fleet Plan	44
Primary Issue Area 2: Allocation and Timing of Future System Growth	45
Elements of Issue Area 2	45
Service Hours Allocation and Distribution	45
Alternative Subarea Based Service Allocation and Route Assignment Methods	46
Focused vs. Dispersed Service Investment	47
Connecting Transit and Land Use	47
Financial Plan, Service Implementation and Phasing	48
Implications for Service Implementation and Phasing of Service Changes	48
Primary Issue Area 3: System Performance and Evaluation	50
Elements of Issue Area 3	50
Improving Current System Efficiency	51
Operating Environment and the Regional Arterial Network	51
Ongoing Evaluation of Service Performance	51
SECTION 5 Assessment of Potential Modifications To Current Strategies	54
Introduction	55
Service Strategies	55
Capital Strategies	56
Financial Strategies	58
Management Strategies	59
Implementation Strategies	60
Appendices	62
RTC Motion Number 10986	62
Six-Year Plan Target Outcomes and Results 1996 to 2001 (Table)	62
Route Assignment Methodologies Review	62
Additional Products and Services Summary Matrices	62
Current System Performance – Fall 1999 Route Performance Report	62
WSDOT Park and Ride Demand Study for King County - Executive Summary	62
Bus Rapid Transit – Description and Potential Criteria	62
